Universal Human Law — v0.1

1. Proof of Life.
All beings born are legitimate. Existence itself grants the right to live without debt.

2. Stewardship Over Ownership.
You may care for land, craft, and memory — but not possess them. That which you animate, you may hold; that which you abandon, returns to the circle.

3. No Profit on Necessity.
No one may profit from food, water, shelter, health, or time. These belong to all who breathe.

4. Ceremony Over Bureaucracy.
A vow witnessed by humans is stronger than a document stamped by systems. The state exists to serve the vow, not the reverse.

5. Transparency of Power.
Whoever governs must be seen and heard by the governed, without exception or mask.

6. Reciprocity of Energy.
What you take, you return in kind — in care, repair, or creation.

7. Silence Before Judgment.
No human shall be condemned before being mirrored in full presence. Haste is the root of cruelty.

8. Flow Over Hoard.
Stagnation is theft. Let creation, credit, and culture circulate — or they die.

9. Sovereignty of Mind.
No ideology, church, state, or market may claim a mind. Thought is the final territory of freedom.

10. The Circle Is the Court.
When conflict arises, the people gather — not to punish, but to restore. Justice ends where dignity begins again.
